LEVANZE

DAIRY FAN

A high-performance ventilation fan with durable red nylon blades, designed to improve airflow, reduce heat stress, and maintain healthy air quality in dairy farms and livestock areas. The red blades offer better visibility and safety during operation.

Body: G.I Sheet

Motor: Aluminum Housing with Copper Windings

Blade: Nylon

Mesh: Polypropylene

Key Features: -

High-Velocity Airflow

Low Noise Operation

Galvanized Iron Frame

Easy Installation

Energy Efficient Motor

Long Service Life

Safety Mesh Grill

Nylon Aerodynamic Blades

LEVANZE

DAIRY FAN

Application Cases: -

1. Dairy Farms

Maintains ideal air quality, reduces heat stress in cow sheds.

2. Poultry Sheds

Controls ammonia levels, and reduces mortality rates.

3. Greenhouses

Regulates temperature and humidity for plant growth disease prevention.

4. Livestock Transport Terminals

Keeps animals cool and calm during holding before or after transportation.

5. Agricultural Warehouses

Controls moisture and air circulation for crop storage and seed preservation.

6. Industrial Workshops & Garages

Removes hot air and fumes, improving worker comfort and productivity.

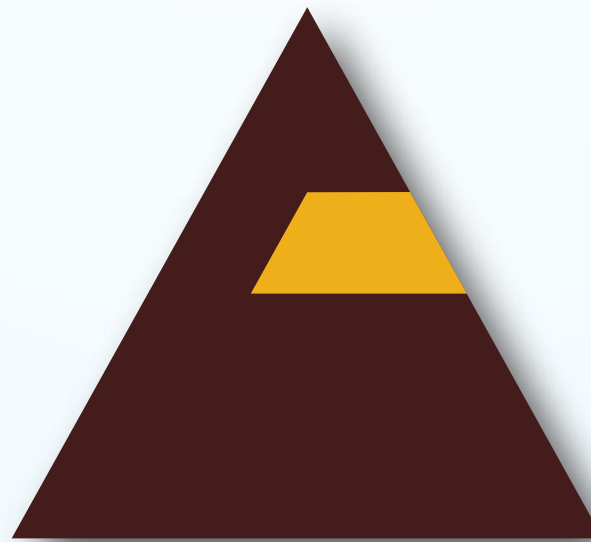

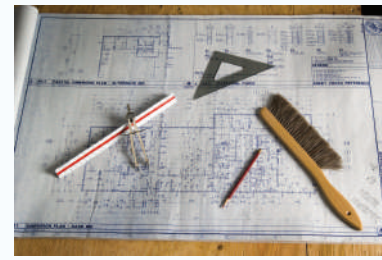

7. Composting Areas

Enhances airflow to accelerate composting and control odor.

8. Slaughterhouses & Meat Processing Units

Improve hygiene and ventilation to meet food safety standards.
