# LEVANZE TURBO FAN

The Turbo Roof Ventilator is a wind-driven, non-electric rooftop ventilator designed to improve air circulation and reduce heat buildup. Ideal for residential, commercial, and industrial use.

## Before-After Comparison: -

## Key Features: -

Wind-Driven Operation

Stainless Steel

Automatic Rotation

Lightweight & Easy to Install

Dual Ball Bearings

Weatherproof Design

Maintenance-Free Operation

Eco-Friendly & Energy Saving

# LEVANZE TURBO FAN

## Application Cases: -

### 1. Industrial Sheds & Factories

Continuous air movement in large spaces.

### 2. Warehouses & Godowns

Prevents moisture and product damage.

### 3. Residential Homes (Especially tin or asbestos roofs)

Reduces heat trapped in attic/ceiling.

### 4. Commercial Buildings

Offices, malls, showrooms — for ventilation without electricity cost.

### 5. Cold Storage Units

Balances inside temperature and humidity.

### 6. Religious Buildings / Halls

Passive cooling during large gatherings.

### 7. Classrooms & Rural Schools

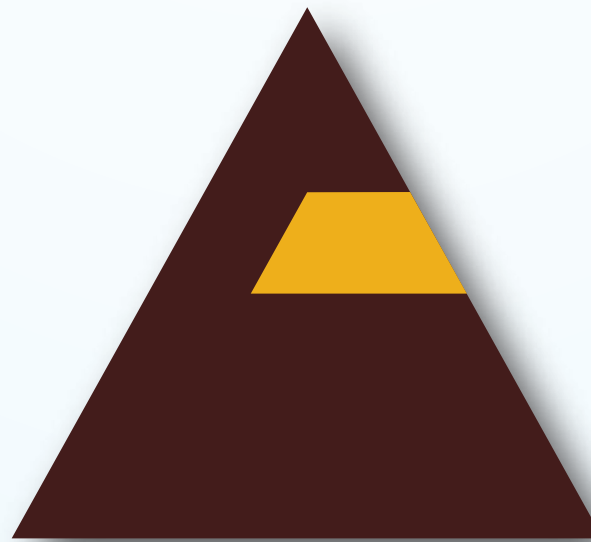

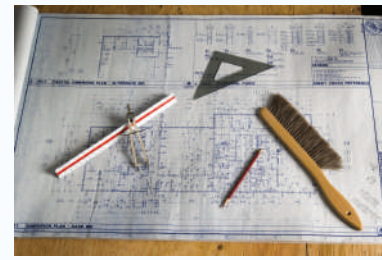

Improves air flow where fans or ACs aren't available.

### 8. Workshops & Garages

Controls fumes, smoke, and trapped heat.
